2025 Institutional Research Week (IRW)
WORKSHOP ALERT!

Explore the Future of Ethical Artificial Intelligence (AI) in Higher Education

📅 **Wednesday, 01 October 2025**   🕐 **10h00 – 16h30**

📍 **HTTPS Building, 6th Floor,
Namibia University of Science and Technology (NUST)**

Join us for a transformative workshop hosted during IRW in partnership with THENSA and the USA Fulbright Scholarship Programme. Led by renowned AI ethics expert Dr George Dimitoglou, this full-day event will explore the responsible use of Artificial Intelligence in higher education.

What to Expect:
- Understand AI's impact on teaching, learning, and institutional operations
- Engage with core ethical principles: fairness, transparency, accountability, and more
- Apply ethics through real-world case studies on bias, privacy, and security
- Collaborate on bold strategies to promote responsible AI across institutions

Who Should Attend?
- University faculty and researchers
- ICT and data governance professionals
- Higher education administrators
- Policy makers and ethics officers
