

# Challenge your creativity and strategic thinking.

Sign-up for the Demola co-creation projects today!

*Innovation is in our  
Dynamism  
Novelty  
Agility*

## What is it all about?

Demola Global runs innovation projects with university students, companies and governments globally. For students, it is an opportunity to join real-life projects to enhance crucial work-life skills, a pathway to interesting career paths and beginnings for creating start-ups.

During the duration of the innovation projects, interdisciplinary student teams work with Demola's international experts to understand future change forces to create new services and products.

## Will the participants get certificates?

Yes, definitely! Upon successful completion of the project, each participant will get a Certificate endorsed by NUST and Demola which you can include in your CV.

## Who can take part in the projects?

All NUST students, in any field of study.

## How long are the projects and where will the training take place?

Eight (8) weeks, at NUST, with flexible remote working hours.

## Where can I get more information?

Visit <https://portal.demola.net> or scan the QR Code.

Project topics/themes include:  
Energy; Tourism; Logistics;  
Health; Innovation,  
Agriculture, and more!

**Due Date:** 03 September 2023
