

Insight Seminar Series

Crafting a Winning Research Proposal

Are you preparing to embark on your research journey and need guidance on developing a compelling and well-structured research proposal? Join us for an insightful seminar on "**Crafting a Winning Research Proposal - Key Components, Research Gaps, and Conceptual Framing.**"

This seminar is designed specifically for NUST postgraduate students and researchers who want to strengthen their research proposals, effectively identify research gaps, and develop a coherent conceptual framework that aligns with their academic and research goals.

Facilitator: Prof Michael Mutingi,
Associate Professor - Industrial
Engineering, Department: Mechanical,
Industrial and Electrical Engineering

What You Will Learn:

- Key components of a strong research proposal - structuring your introduction, research questions, and objectives
- How to identify and articulate research gaps - ensuring originality and relevance
- Developing a solid conceptual framework - linking theory to methodology
- Tips for writing persuasively and concisely - ensuring clarity and coherence
- Common pitfalls to avoid in proposal writing

11 April 2025

Time: 13h00 – 14h00
